OBJECTIVE

Motivated Software Engineering student seeking opportunities to contribute to impactful projects in Java (Spring Boot), full-stack development, App development, and AI/ML. Eager to apply technical skills, collaborate in team environments, and continuously learn in a dynamic, growth-oriented company.

EDUCATION

Bachelor of Engineering in Software Engineering, Pokhara University

Expected 2026

Relevant Coursework: OOP, DSA, AI/ML, Cloud Computing, Agile Methodologies

TECHNICAL SKILLS

Programming Languages	Java, C/C++, Js, Python, Dart
Frameworks & Tech	Spring Boot, Node/Express, React, Flutter, Microservices, REST API
Databases & Tools	MySQL, PostgreSQL, MongoDB, Git, Maven, Postman, Android Studio
OS, Cloud & DevOps	MacOS, Linux, Windows, Docker, CI/CD, AWS(EC2, S3, Lambda)

EXPERIENCE

Java Developer Intern

April 2025

InnoBye Services (Remote)

India

- Developed a full-stack web application using **Spring Boot, MySQL, and Next.js**, gaining hands-on experience in backend and frontend integration.
- Implemented REST APIs and authentication modules, improving application reliability and scalability.

Full-Stack Developer Intern

July 2025 – Present

Neoyaan Ltd

Kathmandu, Nepal

- Working on real-world projects using **Next.js, Node/Express, PostgreSQL**, and DevOps tools (Docker, CI/CD).
- Designed and integrated APIs for complex business workflows, ensuring robust data flow across services.

PROJECTS

Yugo : A step toward smart mobility (Final Year Project) Built a microservices-based transportation system with Spring Boot, PostgreSQL, Redis, Docker, Feign Clients, and a Flutter mobile app. Features include tap-in/out with QR/NFC, wallet integration (Khalti API), trip and route management, and admin dashboard. [\(Live\)](#) *Source code available on request*

Quiz App A quiz app with Spring Boot and Next.js for the frontend. A complete full-stack app with proper auth and working. [\(Live\)](#) [\(Code\)](#)

KhojDu - Rental Platform (In Progress) Developing a web platform for room/flat/house rentals with Next.js (frontend) and Spring Boot + PostgreSQL (backend in progress). Features include landlord registration, property listing with maps, nearby room search, and complaint management, focusing on transparency and ease of use. [\(See Live\)](#) [\(Code\)](#)

SMS Spam Detector A sms message detector either spam or not using Bi-LSTM with Attention Mechanism. There is a simple Streamlit front-end. [See Code](#)

Library Management System A web application built with **React and Supabase** for managing books, users, and borrowing records. [\(Live\)](#) [\(Code\)](#)

many other small projects including some private ones and the organizational projects from hackthon etc. [Check Repos](#)

PARTICIPATION AND VOLUNTEERING

- | | |
|----------------------|-------------------------------------|
| • Volunteer | Final Year Project Exhibition, NCIT |
| • NOSKxNCIT | Hacathons (multiple times) |
| • Executive [active] | Nepal Tek Community, NCIT |

CERTIFICATION AND BADGES
